**PRESENTS**

## **Heritage Guitar Inc. of Kalamazoo Clinic Event November 18, 2017**

**6:00 – 8:00 pm**

**100 Years of Tone & Timbre by Gregg De Lorto. Featuring Heritage Artist,  
the Extraordinary Mimi Fox**

Gregg shares his knowledge, experience and passion for the guitars built at the iconic 100 year young Kalamazoo factory at 225 Parsons Street where the guitars are crafted with tone & timbre and sought after by musicians of all levels and home to Heritage Guitar Inc. of Kalamazoo. His mastery and knowledge of the elements and nuances of Heritage's full guitar line today speaks to all genres of music and players for the must have guitar whether solid, semi-solid body, thinline, carved top hollow body, or the flagship "Golden Eagle."

Heritage Guitar is proud of premier artist, jazz guitarist extraordinaire, Mimi Fox. She is an internationally renowned guitarist/composer/recording artist/educator with a plethora of accolades to her credit including being named a winner in 6 consecutive DownBeat Magazine critics polls. She has played with an impressive lineup of today's top artists including Branford Marsalis, Joey De Francesco, and Diana Krall among countless others. Most recently she has recorded with the San Francisco String Trio. Their newly release CD is a tribute to the Beatles' Sgt. Pepper Album from 50 years ago – unlike any other tribute offered to The Fab Four. She speaks eloquently about her decades relationship with Heritage Guitar Inc. and her much loved Road Warrior. However, you will see and hear her play standards with twists and her unique flavor, including a sneak preview of tunes from the newest CD "May I Introduce to you" – all on her Heritage Signature Model, "The Fox."

**Admission is FREE!**

**115-E Town & Country Dr. Danville, CA 925-743-0898**
